

ERS to Deliver New Technology for Missouri Secretary of State

June 7, 2018

REGINA, Saskatchewan, June 07, 2018 (GLOBE NEWSWIRE) -- Information Services Corporation (TSX:ISV) ("ISC" or the "Company") today announced that its wholly owned subsidiary, Enterprise Registry Solutions Limited ("ERS"), has entered into an agreement with the Secretary of State of Missouri to replace the current technology supporting the business services division of the Office of the Missouri Secretary of State's system with the RegSys platform. The total value of the contract is approximately USD\$2.1 million and is for a period of two years.

Jeff Stusek, President & CEO of ISC commented, "We are extremely pleased to partner with the Secretary of State in Missouri. RegSys is starting to gain recognition in the U.S. as a trusted platform which Secretaries of State can rely upon to improve the delivery of their business services divisions and registry related services. We will continue to pursue opportunities like this in the U.S. as part of our overall growth strategy."

The Missouri Secretary of State's Office is responsible for maintaining the register of Corporations, LLCs, Partnerships, Trademarks, Uniform Commercial Code and Service of Process for the state. A key goal of this implementation is to increase the levels of customer satisfaction and efficiency of processing transactions. When implementation is complete, customers will benefit from an enhanced experience while employees will realize improved workflows and processes as a result of the advanced back office capabilities of RegSys.

RegSys is a multi-registry platform that delivers the flexibility, scalability and features that enable public sector organizations to deliver enhanced services to businesses and citizens. With a full suite of integrated modules which provide core functionality for submission, enforcement and enquiry processing, RegSys delivers solutions enabling the provision of core services to citizens in a user friendly, efficient manner across multiple access points. The RegSys solution has also been used to manage other legal registries including intellectual property, securities, licenses, charities, UCC and pension schemes.
